

L'Esclusività

catering & events

At L'Esclusività Catering we want to make your event a unique and unrepeatable experience. We are a company founded in 2010 dedicated to high-end clients, we start with a team with more than 18 years of experience in the sector in its components, following the evolution of the hotel and catering industry with the best professionals in the sector. That is why our challenge is to bring the restaurant's kitchen wherever you want, improving the current gastronomic level in the market, adapting to any schedule or type of service, gastronomic modality or end of the particular event.

In this type of event, dear people always meet with what increases the emotional level of the same and thus its demand. Birthdays to surprise your friends and family, sweet baptisms and communions, meetings with your loved ones, etc. we would be very happy to collaborate on them.

We had to be a deluxe restaurant with a few tables, with exquisite treatment, first-line gastronomy but in catering. For that we had to adopt the philosophy of exclusivity, holding a single event per day since it allows us to work in a different way than most, and thus we achieve the following purposes:

- First of all, to be able to dedicate extensive attention and communication with our client to soak up their ideas and later be able to capture, organize and carry them out, giving our constant advice to achieve harmony from the beginning to the end of the event.
- Second, by not looking for a volume of daily events, it allows us to rush in the purchase of raw materials so that they are as fresh as possible and be prepared when necessary without losing the slightest quality so that our client can enjoy our gastronomy.
- Third, the same team always goes to work, supported by extra waiters as do all caterings, but having only one event we are not forced to divide the usual staff into several events, being our base at each banquet.
